EXPERIENCE

GOLISANO COLLEGE OF COMPUTING & INFORMATION SCIENCES | Full Stack Engineer
Jan 2025 – May 2025 | Rochester, NY

- Developed a full-stack web application using the React framework and a SQL backend to host student led projects from within the Rochester Institute of Technology
- Worked in an Agile environment with a team of 5 to implement front-end design tokens and a RESTful back-end API.
- Created the dashboard, individual profile and projects pages, projects dashboard, and settings page.

ROCHESTER INSTITUTE OF TECHNOLOGY ITS | Service Desk Representative
Oct 2022 – Dec 2024 | Rochester, NY

- Interacted with clients to assess their problems and implement a solution in an efficient, friendly manner.
- Managed user accounts and permissions while also providing prelimenary troubleshooting for work and personal devices.
- Documented all customer interactions using ServiceNow while maintaining a database of Knowledge Articles for common issues.
- Escalated problems as needed to higher-level teams for further assistance.

PASCACK VALLEY REGIONAL HIGH SCHOOL DISTRICT | Information Technology Summer Intern
Jun 2019 – Aug 2021 | Montvale, NJ

- Prepared workstations and laptops for future use by incoming students.
- Maintained network closets, projectors, phones, and Apple TVs, ensuring all equipment was in proper shape for the academic year.
- Assisted in implementing the front-end for the school district's alumni registry.

PROJECTS

IGNITE-BOOST.NET REVAMP | Personal Project
Jun 2025 – Present | River Vale, NJ

- Recreation of **ignite-boost.net**, a full-stack web application using MongoDB back-end to create a fighting game replay database.
- Redesigning front-end using Angular Material and TailwindCSS for responsive components while matching the visuals identity of the game said website exists for.

INTERNET SCAVENGER HUNT | Class Project for Rich Media Web Application Development II
Nov 2024 – Dec 2024 | Rochester, NY

- Developed **Internet Scavenger Hunt**, a web application designed to create and host scavenger hunts of different websites that users can join and compete in.
- Utilizes a MongoDB back-end and a React with Bootstrap front-end to manage logins and create, manage, and participate in, scavenger hunts.

EDUCATION

ROCHESTER INSTITUTE OF TECHNOLOGY
Bachelor of Science in Game Design & Development
Graduated May 2025 | Rochester, NY

SKILLS

PROGRAMMING
8+ years:
Java • JavaScript • HTML • CSS • PHP • SQL • Bootstrap
3+ years:
C# • C/C++ • Axure • Node.js
2+ years:
React • Angular • Express.js • MongoDB • TailwindCSS • Vue • Next.js • Python
1+ years:
Spring.js • Redis • Jest • Figma • Jasmine

TECHNOLOGY
Git/Github • WordPress • Amazon Web Services (AWS) • MySQL • Jira • Visual Studio Code • Windows • Microsoft Office Suite • Adobe Suite • ServiceNow

COURSEWORK

UNDERGRADUATE
Rich Media Web Application Development II (React/Node.js)
Experience Design Games & Media (UI/UX)
Rich Media Web Application Development I (JavaScript)
Data Structures & Algorithms for Games & Simulations II (C#)
Foundation of Game Graphics Programming (C++)
Game Design & Development II (C#)

CERTIFICATIONS

Atlassian Agile Project Management Professional (Scrum/Jira)

EXTRACURRICULARS

RIT FIGHTING GAME CLUB | President
May 2023 – Dec 2024 | Rochester, NY
- Responsible for organizing and running three weekly double-elimination brackets for fighting games voted on by club members.
- Managed budget allocations for new equipment and developed fundraising events to do so.
- Communicated with Challonge API to allocate points based on bracket performance which were then stored in a SQL database.
- Maintained website using Bootstrap front-end hosted on Amazon Web Services (AWS). The bracket placements are pulled from the SQL database into sortable tables, organized by game and semester.

FRC TEAM 1676: THE PASCACK PI-ONEERS | Information Technology Subdivision
Sep 2017 – Jun 2021 | Montvale, NJ

- Led subdivision during 2020 - 2021 season, handling migration of team website from Drupal to WordPress for greater ease of use.
- Assisted in the development of the Scouting Web application, designed to record data about other teams during competitions to form alliances. Utilized a PHP backend to communicate with a SQL database.
- Developed Calendar page with Google Calendar integration for Awning, a scrapped web application for stress management. Users could create and manage events on Awning that would sync with Google Calendar.
