EXECUTIVE SUMMARY

Recent graduate and front-end-focused full-stack engineer with strengths in React, Angular, Vue, Node.js, SQL, and NoSQL. Delivering highly responsive, modular front-ends and efficient, well-documented RESTful API backends.

EXPERIENCE

GOLISANO COLLEGE OF COMPUTING & INFORMATION SCIENCES | FULL STACK ENGINEER

Jan 2025 – May 2025 | Rochester, NY

- Developed a full-stack web application using React, SQL, and RESTful API integrations, supporting approximately 10,000 active users and improving access to student-led projects.
- Implemented front-end design tokens, enhancing UI consistency and maintainability while working in an Agile development team of five.
- Built and optimized key UI components including dashboards, profile interfaces, project listings, and settings page.

ROCHESTER INSTITUTE OF TECHNOLOGY ITS | SERVICE DESK REPRESENTATIVE

Oct 2022 – Dec 2024 | Rochester, NY

- Diagnosed software, hardware, and network issues using established processes, enabling faster resolution times and more efficient service operations.
- Documented incidents in ServiceNow and maintained a structured Knowledge Base to streamline repeat issue resolution and support team knowledge-sharing.

PASCACK VALLEY REGIONAL HIGH SCHOOL DISTRICT | INFORMATION TECHNOLOGY SUMMER INTERN

Jun 2019 – Aug 2021 | Montvale, NJ

- Maintained essential IT infrastructure including network closets, laptops, projectors, phones, and Apple TVs to ensure uninterrupted daily operations.
- Assisted in front-end development for the district's alumni registry, improving interface usability and system organization.

PROJECTS

IGNITE-BOOST.NET REVAMP | PERSONAL PROJECT

Jun 2025 – Aug 2025 | River Vale, NJ

- Revamped the full-stack MERN web app **ignite-boost.net**, serving as a replay database for the fighting game Dengeki Bunko Fighting Climax.
- Migrated the front-end from React to Angular 20, leveraging modern features and modular components via Angular Material and TailwindCSS to ensure a more scalable and maintainable architecture.

INTERNET SCAVENGER HUNT | CLASS PROJECT FOR RICH MEDIA WEB APPLICATION DEVELOPMENT II

Nov 2024 – Dec 2024 | Rochester, NY

- Developed **Internet Scavenger Hunt**, a full-stack app using React, Bootstrap, and MongoDB to create, host, and partake in online scavenger hunts, with user authentication and real-time updates.
- Implemented MongoDB back-end for scalable data management and React front-end for a responsive user interface.

EDUCATION

ROCHESTER INSTITUTE OF TECHNOLOGY

BACHELOR OF SCIENCE IN GAME DESIGN & DEVELOPMENT
Graduated May 2025 | Rochester, NY

SKILLS

PROGRAMMING

- JavaScript/TypeScript
- Java
- SQL
- C#
- Angular
- React.js
- Vue.js
- Node.js
- MongoDB
- Next.js
- Redis

TECHNOLOGY

Git/Github • WordPress • Amazon Web Services (AWS) • MySQL • Jira • Visual Studio Code • Windows • Microsoft Office Suite • Adobe Suite • ServiceNow

COURSEWORK

UNDERGRADUATE

Rich Media Web Application Development II (React/Node.js)
Experience Design Games & Media (UI/UX)
Data Structures & Algorithms for Games & Simulations II (C#)
Foundation of Game Graphics Programming (C++)

CERTIFICATIONS

Atlassian Agile Project Management Professional (Scrum/Jira)

EXTRACURRICULARS

RIT FIGHTING GAME CLUB | PRESIDENT

May 2023 – Dec 2024 | Rochester, NY

- Organized and ran weekly double-elimination tournaments for fighting games, engaging 30+ club members per session and fostering a competitive, inclusive community.
- Managed budget and fundraising for new equipment, allocating funds efficiently to enhance club resources and member experience.
- Developed and maintained the club's website with Bootstrap and AWS, integrating the Challonge API to track bracket performance and display sortable tournament results stored in an SQL database.

FRC TEAM 1676: THE PASCACK PI-ONEERS | INFORMATION

TECHNOLOGY SUBDIVISION

Sep 2017 – Jun 2021 | Montvale, NJ

- Led IT subdivision during the 2020-2021 season, overseeing the migration of the team website from Drupal to WordPress, improving usability and accessibility for team members.
- Contributed to the development of the Scouting Web app, building a PHP back-end with SQL database integration to track and analyze competition data for strategic alliance formation.
- Developed a Google Calendar-integrated page for "Awning," a scrapped stress management app, allowing users to manage events that synced directly with Google Calendar.

AWARDS

AP SCHOLAR

Nov 2020

Given to an individual that has scored a 3 or higher on three or more advanced placement exams.

PRESIDENT VOLUNTEER SERVICE AWARD - BRONZE LEVEL

Nov 2017

Received for recognition and appreciation for commitment to strengthening our nation and communities through volunteer service.
