EXPERIENCE

GOLISANO COLLEGE OF COMPUTING & INFORMATION SCIENCES | FULL STACK ENGINEER

Jan 2025 – May 2025 | Rochester, NY

- Developed a full-stack web application using the React framework and a SQL backend to host student led projects from within RIT to serve approximately 10,000 active users.
- Collaborated in an Agile team of 5 to implement front-end design tokens and a RESTful back-end API.
- Created key user interface components including the dashboard, individual profile, and projects pages, and settings page.

ROCHESTER INSTITUTE OF TECHNOLOGY ITS | SERVICE DESK REPRESENTATIVE

Oct 2022 – Dec 2024 | Rochester, NY

- Provided high-quality customer support, delivering efficient, friendly solutions, and consistently ensuring a positive user experience.
- Performed preliminary troubleshooting for a wide range of work and personal devices, providing solutions that prevented unnecessary escalation to higher-level teams, improving overall service efficiency.
- Documented all customer interactions in ServiceNow while maintaining and updating a comprehensive Knowledge Base to streamline troubleshooting for recurring issues.

PASCACK VALLEY REGIONAL HIGH SCHOOL DISTRICT | INFORMATION TECHNOLOGY SUMMER INTERN

Jun 2019 – Aug 2021 | Montvale, NJ

- Prepared over 250 workstations and laptops for incoming students, ensuring that each device was configured and ready for use.
- Maintained and ensured the functionality of critical IT equipment, including network closets, projectors, phones, and Apple TVs.
- Assisted in the development of the school district's alumni registry, contributing to the front-end implementation and design.

PROJECTS

IGNITE-BOOST.NET REVAMP | PERSONAL PROJECT

Jun 2025 – Aug 2025 | River Vale, NJ

- Revamped the full-stack MERN web app **ignite-boost.net**, serving as a replay database for the fighting game Dengeki Bunko Fighting Climax.
- Migrated the front-end from React to Angular 20, leveraging modern features and modular components via Angular Material and TailwindCSS, alongside best practices to ensure a more scalable and maintainable architecture.

INTERNET SCAVENGER HUNT | CLASS PROJECT FOR RICH MEDIA WEB APPLICATION DEVELOPMENT II

Nov 2024 – Dec 2024 | Rochester, NY

- Developed **Internet Scavenger Hunt**, a full-stack app using React, Bootstrap, and MongoDB to create, host, and partake in online scavenger hunts, with user authentication and real-time updates.
- Implemented MongoDB back-end for scalable data management and React front-end for a responsive, interactive user interface.

EDUCATION

ROCHESTER INSTITUTE OF TECHNOLOGY

BACHELOR OF SCIENCE IN GAME DESIGN & DEVELOPMENT

Graduated May 2025 | Rochester, NY

SKILLS

PROGRAMMING

8+ years:

Java • JavaScript • HTML • CSS • PHP • SQL • Bootstrap

3+ years:

C# • C/C++ • Axure • Node.js

2+ years:

React • Angular • Express.js • MongoDB • TailwindCSS • Vue.js • Next.js • Python

1+ years:

Spring • Redis • Jest • Figma • Jasmine

TECHNOLOGY

Git/Github • WordPress • Amazon Web Services (AWS) • MySQL • Jira • Visual Studio Code • Windows • Microsoft Office Suite • Adobe Suite • ServiceNow

COURSEWORK

UNDERGRADUATE

Rich Media Web Application

Development II (React/Node.js)

Experience Design Games & Media (UI/UX)

Rich Media Web Application

Development I (JavaScript)

Data Structures & Algorithms for Games & Simulations II (C#)

Foundation of Game Graphics

Programming (C++)

Game Design & Development II (C#)

CERTIFICATIONS

Atlassian Agile Project Management Professional (Scrum/Jira)

EXTRACURRICULARS

RIT FIGHTING GAME CLUB | PRESIDENT

May 2023 – Dec 2024 | Rochester, NY

- Organized and ran weekly double-elimination tournaments for fighting games, engaging 30+ club members per session and fostering a competitive, inclusive community.
- Managed budget and fundraising for new equipment, allocating funds efficiently to enhance club resources and member experience.
- Developed and maintained the club's website with Bootstrap and AWS, integrating the Challonge API to track bracket performance and display sortable tournament results stored in an SQL database.

FRC TEAM 1676: THE PASCACK PI-ONEERS | INFORMATION

TECHNOLOGY SUBDIVISION

Sep 2017 – Jun 2021 | Montvale, NJ

- Led IT subdivision during the 2020-2021 season, overseeing the migration of the team website from Drupal to WordPress, improving usability and accessibility for team members.
- Contributed to the development of the Scouting Web app, building a PHP back-end with SQL database integration to track and analyze competition data for strategic alliance formation.
- Developed a Google Calendar-integrated page for "Awning," a scrapped stress management app, allowing users to manage events that synced directly with Google Calendar.

AWARDS

AP SCHOLAR
